MINING FACILITY

- Block mined by pool:13682
- Current training roll:128672
- Time since last block: 393 secs
- Current Block Cycles Burned: 322 TC

>The whole AI network will produce 800_000 blocks

>Each roll of AI training have the chance to be accept by block-chain

>Conjugate gradient is the mainly algorithm to confirm the blocker have turely value

>As Univoice ,the value of training data would be descended, then the token mining speed will become slow
